بەرنامە Scan & Repair Utilities 2007 بۆ سکان کردن و چارەسەر کردنی

کیشەکانی کۆمپیوتەر

Scan & Repair Utilities 2007 بەرنامەیهکی سەرکەوتوو بۆ سکان کردن و چارەسەر کردنی کیشەکانی ویندۆز .  
بەرنامەیهکی بەهێزە بۆ ئەناوێردنی (سپای واره).

Scan & Repair Utilities - 2007 is the ultimate solution that safeguards your system.

Protects your PC with the leading anti-spyware software ...

- Search and remove aggressive spyware and malicious content
- Scan fixed and removable drives, memory and Windows registry
- Active monitoring of your computer hijackers
- Store malicious files in quarantine
- Live update from our detection database

Scan & Repair Utilities - 2007 detects, removes and blocks even the most vicious spies. As spyware continuously grows more sophisticated you need anti-spyware protection that not only detects and removes the latest generation of spies but also blocks new threats before they can infect your PC.

## **Scan & Repair Features**

Scan and Repair Utilities 2007 features include:

### **Scan your Computer**

You can choose between 3 different scanning modes. Scan detection uses a database with more than 122.000 spyware definitions.

- Quick computer scan, that allow you to quickly check your system or any potential problems. This is the fastest scanning mode
- Full computer scan will perform an in-depth system scan of your computer but it takes more time. We recommend it as the first system scan
- Custom scan allows you to perform scanning of custom folders on your machine. It is recommended for advanced users

Scan and Repair Utilities 2007 displays detailed statistics about past scanings, updated database keys etc.

### **Quarantined Objects**

All suspicious objects are put in quarantine. While in quarantine, they pose no threat to your system.

### **Active Monitor**

Active monitoring of process and their modules. You are allowed to kill processes directly from applications.

### **Ignored Objects**

Files you do not wish to remove even though they are detected as a threat can be marked and moved to Ignore List.

### **User Customisation**

Scan and Repair Utilities 2007 can be customised to meet all user demands.

Additional tools supplied are:

- Popup blocker
- IP2IP messenger popup blocker
- Virus scanner
- ActiveX blocker
- Scanning scheduler etc.

## Live Update

Our team of experts add new spyware and malware definitions daily - update your definitions once a week to keep you PC safe and clean

## Advanced Workshop

For advanced users only - manually locate and remove unknown malware.
